

Invitation to Young Psychiatrists

Dear Colleagues,

It is both our privilege and a special pleasure to welcome you to Vilnius, Lithuania, on 3-6 May 2017 for the WPA Inter Zonal Congress which will be organized by the WPA under the presidency of Prof. Dinesh Bhugra (WPA, President).

With the title *Changing Society, Changing Psychiatry, Changing Self*, the Congress is expected to attract psychiatrists and other mental health professionals from around the world, bringing together diverse knowledge and professional expertise in these fields. With participants from all WPA Zones attending, each zone characterized by specific professional and cultural experiences in developing mental health care models, along with specific attitudes of people, family and society towards mental health, this Congress provides us a unique environment for sharing the dynamics of our changing society, psychiatry and individual.

Young psychiatrists will have the chance to benefit from scientific exchange during both the formal activities and informal meetings with leading experts and colleagues from different backgrounds, as well as to promote their research, engage in discussions to improve care for patients and receive information regarding important and necessary progress in psychiatry and its policy.

For more information, please see: www.wpavilnius2017.com. For any questions or proposals, please contact: info@psichiatrija.lt.

We look forward to seeing you all in Vilnius in May 2017.

Organizers of the WPA Inter Zonal Congress, Vilnius, Lithuania, 2017
